Heavy Duty Currency Counters

Ease of Use
The S-1100 Series Heavy Duty Currency Counters are intended for use in mid to high volume applications. Designed for operator convenience, the user friendly control panel features a 10 digit keypad for batching along with buttons for commonly used features.

High Speed
These counters operate at a counting speed of 1,000 banknotes per minute. Counting tasks that would have taken hours are now reduced to just minutes.

Counting Precision & Accuracy
Semacon Currency Counters are engineered with fully automated, advanced screening technology to detect errors including double notes, chain notes, half notes, etc., ensuring the most accurate counts.

Reliability & Durability
The S-1100 Series counters are designed with a solid metal chassis and heavy duty components throughout the machine, ensuring long-term trouble-free operation even under heavy use conditions or harsh environments.

Advanced Counterfeit Detection
Select models offer an advanced counterfeit detection system designed to pinpoint suspect counterfeit banknotes featuring ultraviolet (UV) detection for banknote paper properties and (optionally) dual magnetic (MG) detection for banknote ink properties.

Size Detection
These counters offer size detection capabilities which distinguish larger or smaller banknotes within a bundle for countries where currency size varies with denomination.

Dual Displays
The S-1100 Series incorporates dual viewing displays making it easy for the operator and the customer or manager to view the counting process and results.

Available for International Markets
S-1100 Series Heavy Duty Currency Counters are in use worldwide and have been proven to work with a wide variety of currencies.

Semacon Quality Promise
All Semacon machines are extensively tested and burned in under rigorous conditions in our US facility, assuring the highest possible quality and reliability.

S-1100 Series

Feed System:
Friction Roller System

Hopper Capacity:
100 – 200 Notes

Stacker Capacity:
100 – 200 Notes

Note Size:
From 100 x 50 to 175 x 100 mm

Power Source:
110V/60Hz or 220V/50Hz

Dimensions:
9.5”W x12.5”D x 8.5”H

Weight:
14 – 15 lbs.
