wI:Deal™

UniLink™

The Panini **wI:Deal**™ is a true "all-in-one", multi-format device made affordable. Whether it's a small to medium business owner, healthcare provider, or bank branch manager, the user can scan checks and other documents associated with payments, quickly and professionally.

Optimized for a wide range of applications...

Extending and leveraging the superior design and check processing performance of the I:Deal® check scanner, the **wI:Deal™** continues the Panini tradition of innovation by adding complete multi-format document automation capability, allowing to capture full-page documents, envelopes, and rigid documents such as ID cards and driver's licenses.

The Panini wI:Deal is the perfect fit for companies who need to accurately scan checks and associated documents, for a complete payment transaction capture solution. Applications include virtual (or distributed) lockbox, small business Remote Deposit Capture, and vertical industry payment applications such as healthcare, insurance, check cashing, non-profit, and many more.

It's also a suitable platform for capturing a variety of document types at the bank branch sales (or platform) desk, or even at the teller station, with no need to use multiple scanners.

The wI:Deal offers extensive benefits you've come to expect from Panini:

- true check processing functionality, and related security
- multi-format capture capability, extending Remote Deposit Capture and adding value to a wide range of vertical applications
- outstanding ease of use and ergonomics, while promoting convenience and space efficiency at the user's desk
- compatibility with existing imaging applications, achievable thanks to Panini's TWAIN interface

- Optimized single check feeding and processing

- Duplex scanning of full pages up to legal size

- Dedicated track for rigid documents (ID cards)

- Auto-identification of format and processing mode

- Front franking and rear ink jet options

- TWAIN interface

wI:Deal™

A Complete Payment Transaction
Capture Solution

Storage Tray

10-document sequential user-facing storage tray; document may also be returned to feeder via API command – acting as a reject pocket.

Endorsement

Optional 1-line rear ink jet printer with intelligent printing capability (SmartJet): endorsement based on MICR read and/or image contents.

Virtual endorsement via Vision API software library.

Duplex Image Capture

Grayscale, bitonal or full-color front & rear imaging in multiple resolution settings (up to 600 dpi) with a single camera, using Panini's patented rotating CIS mechanism.

Optional OCR decoding, Barcodes decoding, IQA library.

MICR Reader

Advanced MICRPlus® magnetic reading including OCR correction, bundled with Panini's Vision API for optimal E13B/CMC7 read accuracy.

Multi-Format Feeder

Horizontal single document feed with auto-alignment mechanism for easy use, compatible with:

- checks and check-sized documents
- full pages (letter, legal, A4)
- rigid documents (ID cards, driver's licenses, envelopes)

Automatic document type detection and application of proper processing parameters.

Franking

Optional intelligent front side franking capability: document may be franked or not based on MICR read and/or image contents.

wI:Deal uses Panini's unified Vision API, in common with other Panini scanning platforms.

TWAIN layer also available.
