

**UniLink**<sup>™</sup>  
SigLite LCD 1x5

# T-L(BK)460

The Topaz<sup>®</sup> SigLite<sup>®</sup> LCD 1x5 is a small, pressure-sensitive, low-cost electronic signature pad with transfective LCD that displays “electronic ink” under the pen tip during signing. It features all the high quality biometric and forensic capture techniques of a SignatureGem<sup>®</sup> LCD 1x5 signature pad but with a low-cost touchpad and stylus in place of the more rugged digitizing pen and inert tempered glass surface.

Bundled secure software APIs provide for interactive text, graphics, and pen-tap hotspots and checkboxes which enable users to navigate screens and select preferred options.

The SigLite LCD 1x5 shows the signature on the signature pad, as well as the computer screen.
