SignatureGem LCD 4x5

T-LBK766

The Topaz® SignatureGem® LCD 4x5 is one of Topaz's largest, rugged, advanced electronic signature capture pad with a bright QVGA (320 x 240) TFT LCD that captures and displays high-resolution "electronic ink" under the pen tip for a natural signature.

The large signing area and rugged signing surface make this a versatile pad for the most demanding applications. Bundled secure software APIs provide for interactive text, graphics, and pen-tap hotspots and checkboxes which enable users to navigate screens, read agreements, and select preferred options before signing.

The SignatureGem LCD 4x5 shows the signature on the signature pad, as well as the computer screen.

BENEFITS

- ✓ Large, rugged signing area for **long life**
- ✓ QVGA TFT LCD display for **customization**
- ✓ High-quality **biometric and forensic** capture
- ✓ Topaz software suite bundled at **no additional cost** for complete signing and signature solution customization techniques

SPECIFICATIONS

Warranty

3-years, with renewal option

Sensor Type

Tempered glass surface
Rated to 2 million signatures
High-performance E/M digitizer

Pen Type

Active low-power,
Rugged E/M
Battery-less

Resolution & Conversion Rate

Exceeds industry standards
Programmable PPI

Dimensions

7.2" x 6.6" x 2.1" sloping
180mm x 160mm x 54mm

Signing Area

4.6" x 3.4"
118mm x 86mm

Authentication Capability

Forensic quality .SIG data capable of examination and authentication with Topaz software
